INTRODUCTORY SECTION

THIS PAGE LEFT BLANK INTENTIONALLY

March 17, 2011

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Deer Park, Texas:

Texas law and the City charter require that the City of Deer Park publish a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Deer Park for the fiscal year ended September 30, 2010.

This report consists of management's representations concerning the finances of the City of Deer Park, Texas. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City of Deer Park has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City of Deer Park's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City of Deer Park's comprehensive framework of internal controls has been designated to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City of Deer Park's financial statements have been audited by Pattillo, Brown, & Hill, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City of Deer Park for the fiscal year ended September 30, 2010, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City of Deer Park's financial statements for the fiscal year ended September 30, 2010, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management Discussion and Analysis (MD&A). This letter of transmittal is designed to compliment MD&A and should be read in conjunction with it. The City of Deer Park's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Deer Park, incorporated in 1948, is located in the center of the highly industrialized ship channel area just east of Houston. The City of Deer Park currently occupies a land area of 15 square miles and serves a population of approximately 32,080. The City of Deer Park is empowered to levy a property tax on both real and personal properties located within its boundaries. It also is empowered to extend its corporate limits by annexation. Additionally, the City of Deer Park receives annual "in-lieu-of-tax" payments from industries located within its extraterritorial jurisdiction. This "industrial district" includes the operations of 21 companies that contract with the City of Deer Park on a periodic basis. The current contract period is 2008 through 2014.

The City of Deer Park operates under a home rule, council-manager form of government. Policy-making and legislative authority are vested in a City Council consisting of the mayor and six other members. The City Council is responsible, among other things, for passing ordinances, adopting the budget, appointing committees, and hiring the City Manager and City Attorney. The Council is elected on a non-partisan basis. Council members serve two-year staggered terms, with three Council members and the Mayor elected in odd numbered years and the three remaining Council members elected in even numbered years. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the government, and for appointing the heads of the various departments.

The City of Deer Park provides a full range of services, including police and fire protection; the construction and maintenance of streets and other infrastructure, sanitation, water and sewer services; and recreational and cultural events. There are no legally separate component units for which the City of Deer Park is financially accountable.

The annual budget serves as the foundation for the City of Deer Park's financial planning and control. All departments of the City of Deer Park are required to submit requests for appropriation to the City manager usually in late April or early May of each year. The City Manager uses these requests as the starting point for developing a proposed budget. The City Manager then presents this proposed budget to the council for review at least 45 days prior to the last regular Council meeting in September of each year. The appropriated budget is prepared by fund, function (e.g., public safety), and department (e.g., police). Appropriations are approved at the departmental level. Department heads may make appropriation transfers within a department with approval of the City Manager. Appropriations outside of the department require approval of the City Council. Budget to actual comparisons are provided in this report for each individual government fund for which an appropriated annual budget has been adopted. For the General Fund, this comparison is presented on page 61 of the combining and individual fund statements and schedules. For governmental funds, other than the General Fund, with appropriated annual budgets, this comparison is presented on pages 69 – 70.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Deer Park operates.

Local economy. The City of Deer Park currently enjoys a favorable economic environment and local indicators point to continued stability. The large refinery and chemical plants, located in the industrial district, have experienced some of their highest profits over this past year and continue to perform well. Additionally, several related companies are building within the City limits. The City is experiencing retail and commercial growth with the addition of a various new businesses the last fiscal year and into this year. A large new business park was approved by City Council and construction began during the year.

The region (which includes the City of Deer Park and the surrounding area within Harris County) has an employed labor force of approximately 2,300,000, with a grow rate of 2.2 percent this year and a projected 24.52 percent over the next 10 years. Residential growth continues with the development of new subdivisions on the east side of the City.

Accounting and budgetary controls. The City's accounting records for general governmental operations are maintained on a modified accrual basis, with revenues being recorded when available and measurable, and expenditures being recorded when the liability is incurred. Proprietary operations are maintained on a full accrual basis.

Changes to approved expenditures are incorporated into the current year budget throughout the year in the form of budget amendments approved by Council. These amendments, as well as updated revenues and other re-estimated expenses become part of the Revised Budget that is presented to Council concurrent with the Proposed Budget.

During the course of the fiscal year, each department head monitors expenditure controls with overall review exercised by the Finance Department and the City Manager. Monthly expenditure reports are distributed, based on the automated accounting system, that provide year-to-date expenditure totals for each line item compared to the amount expended at that point in time in the prior year.

Constant review of revenue and expenditure trends is maintained with specific responsibility assigned to department heads. Recommendations for corrective action are made to the City Manager (and to the City Council, if appropriate) as needed to ensure the integrity of the adopted budget.

Management of the City is responsible for establishing and maintaining an internal control system designed to ensure that the City's assets are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements with generally accepted accounting principles. The internal control system is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived; and the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial awards, the City is also responsible for ensuring that adequate internal controls are in place to ensure compliance with applicable laws and regulations relating to these programs. Internal controls are subject to periodic evaluation by management and independent auditors.

Long-term financial planning. The City is preparing a Capital Improvement Plan (CIP) for drainage projects and infrastructure needed to service areas throughout the City. The results of this CIP will necessitate the funding through the issuance of debt in 2011 in combination with funds from the City's CIP fund.

In order to remain financially strong and provide a framework for prudent financial management, the following financial controls are maintained annually:

- A multi-year financial forecast is prepared projecting revenues and expenditures for all operating funds.
- Rates, fees and charges for services are reviewed and adjusted as necessary to respond to changing financial circumstances.
- Insurance coverage is examined to ensure that policy limits are adequate and in compliance with revenue bond covenants.
- Bonds are sold to finance long-term capital projects.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Deer Park for its comprehensive annual financial report (CAFR) for the fiscal year ended September 30, 2009. This was the 23rd consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the finance and accounting department. I would like to express my appreciation to all members of the department who assisted and contributed to the preparation of this report. Credit must also be given to the City Manager, Jay Stokes, the Mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Deer Park's finances.

Respectfully submitted,

H. Keith Nelson

INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and
Members of the City Council
City of Deer Park, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Deer Park, Texas, as of and for the year ended September 30, 2010, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Deer Park, Texas' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Deer Park, Texas, as of September 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 17, 2011, on our consideration of the City of Deer Park, Texas' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards*, and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 10 through 18, 55 and 56 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Pattillo, Brown & Hill, L.L.P.

March 17, 2011

**MANAGEMENT'S
DISCUSSION AND ANALYSIS**

THIS PAGE LEFT BLANK INTENTIONALLY

Management's Discussion and Analysis

As management of the City of Deer Park, we offer readers of the City of Deer Park, Texas' financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2010. This analysis should be read in conjunction with the basic financial statements that follow this section.

FINANCIAL HIGHLIGHTS

- The assets of the City of Deer Park exceeded its liabilities as of September 30, 2010, by \$64,473,886 (net assets). Of this amount, \$17,875,765 (unrestricted net assets) is available for use to meet the City's ongoing obligations to citizens and creditors. The City's total net assets decreased \$(2,655,440). In the business-type activities, the Water and Sewer Fund had a net income before transfers of \$355,932.
- At the close of the current fiscal year, the City of Deer Park's governmental funds reported combined ending fund balance of \$34,603,130, an increase of \$3,643,485 from fiscal year 2009. The major reason was due to the increases in tax revenues from new development. The ending fund balance includes an unreserved portion of \$15,247,265. This amount is available for expenditure within the City's fund designation and fiscal policies.
- As of September 30, 2010, unreserved, undesignated fund balance for the General Fund was \$15,247,265 or 47% of General Fund expenditures.
- The City's total outstanding debt increased \$8,041,574 or 17% during the year.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Deer Park's basic financial statements. The City's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements – The government-wide financial statements, which begin on page 19 of this report, are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The *Statement of Net Assets* presents information on all of the City's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *Statement of Activities* presents information showing how the City's net assets changed during the fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include General Government, Public Safety, Public Works and Community Development. The business-type activities of the City of Deer Park include the Water and Sewer System.

The government-wide financial statements can be found on pages 19 – 21 of this report.

Fund financial statements – A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Deer Park maintains 17 individual governmental funds for financial reporting purposes. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balance for the General Fund, the Debt Service Fund, the CIBF 2007 Fund, and the CIBF 2010 Fund that are considered to be major funds. Data from the other 13 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements beginning on page 57 of the City's Comprehensive Annual Financial Report.

Proprietary Funds – The City maintains a type of proprietary fund referred to as an Enterprise Fund. These funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Deer Park uses an Enterprise Fund to account for its Water and Sewer System.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Water and Sewer System, which is considered to be a major fund for the City of Deer Park.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are on pages 31 – 54 of this report.

Required Supplementary Information – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Deer Park’s progress in funding its obligation to provide pension benefits to its employees.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of the government’s financial position. In the case of the City of Deer Park, assets exceeded liabilities by \$64,473,886 as of September 30, 2010. A schedule of net assets at September 30, 2010 and 2009, (in 000s) follows:

CITY OF DEER PARK’S NET ASSETS

	Governmental Activities		Business-type Activities		Totals	
	2010	2009	2010	2009	2010	2009
Current and other assets	\$ 38,298	\$ 34,421	\$ 4,190	\$ 4,104	\$ 42,488	\$ 38,525
Capital assets	56,768	53,820	23,697	24,618	80,465	78,438
Total assets	95,066	88,241	27,887	28,722	122,953	116,963
Long-term liabilities	46,057	34,055	8,837	12,699	54,893	46,754
Other liabilities	2,438	1,550	1,148	1,027	3,586	2,577
Total liabilities	48,495	35,605	9,985	13,726	58,479	49,331
Net assets:						
Invested in capital assets, net of related debt	29,889	32,073	12,218	12,218	42,107	44,291
Restricted	4,491	4,788	-	-	4,491	4,788
Unrestricted	12,191	15,775	5,684	2,778	17,875	18,553
Total net assets	\$ 46,571	\$ 52,636	\$ 17,902	\$ 14,996	\$ 64,473	\$ 67,632

By far, the largest portion of the City’s net assets (66%) reflects its investment in capital assets (land, building, machinery, equipment and infrastructure), less any related debt used to acquire those assets still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City’s investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The remaining portions of the City’s net assets includes resources that are subject to external restrictions on how they may be used (restricted net assets) and unrestricted net assets of \$17,875,765 that may be used by the City for any lawful purpose.

Changes in net assets for the years ended September 30, 2010 and 2009, (000s) follow:

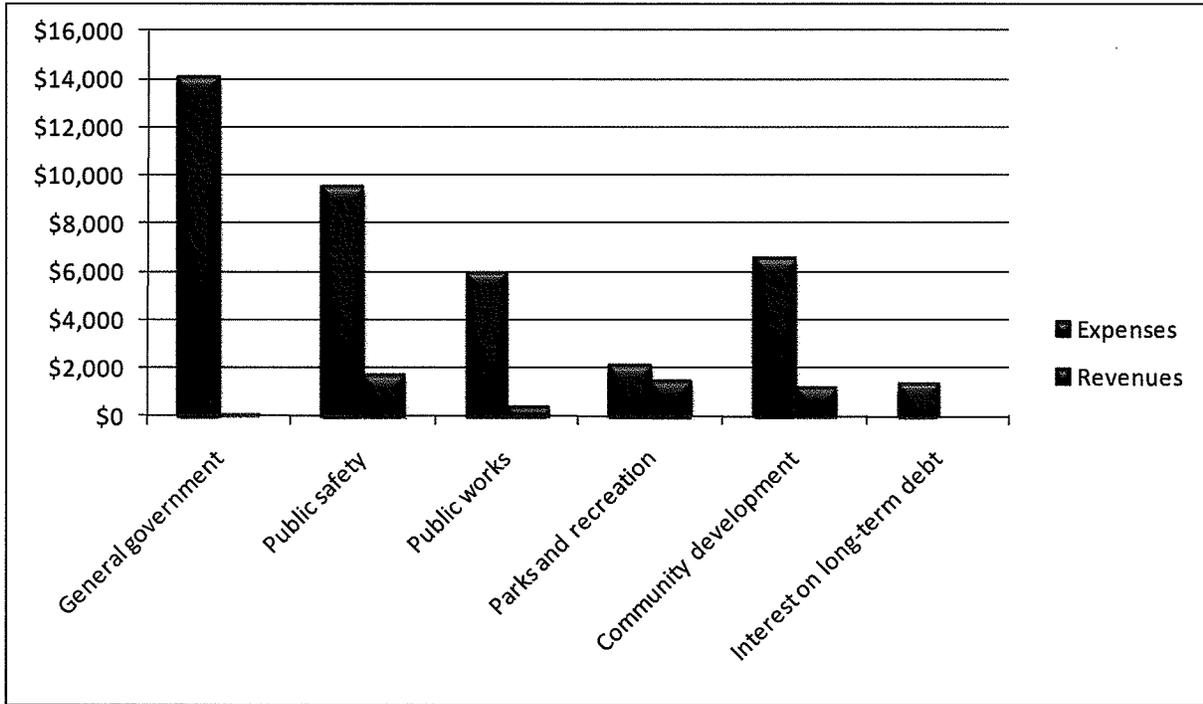

CITY OF DEER PARK'S CHANGES IN NET ASSETS

	Governmental Activities		Business-type Activities		Totals	
	2010	2009	2010	2009	2010	2009
Revenues:						
Program revenues:

Increases in net assets						
before transfers	(3,012)	7,452	355	40	(2,657)	7,492
Transfers	(2,550)	-	2,550	-	-	-
Change in net assets	(5,562)	7,452	2,905	40	(2,657)	7,492
Net assets - beginning	52,636	45,184	14,997	14,956	67,633	60,140
Prior period adjustment	(503)	-	-	-	(503)	-
Net assets - ending	<u>\$ 46,571</u>	<u>\$ 52,636</u>	<u>\$ 17,902</u>	<u>\$ 14,996</u>	<u>\$ 64,473</u>	<u>\$ 67,632</u>

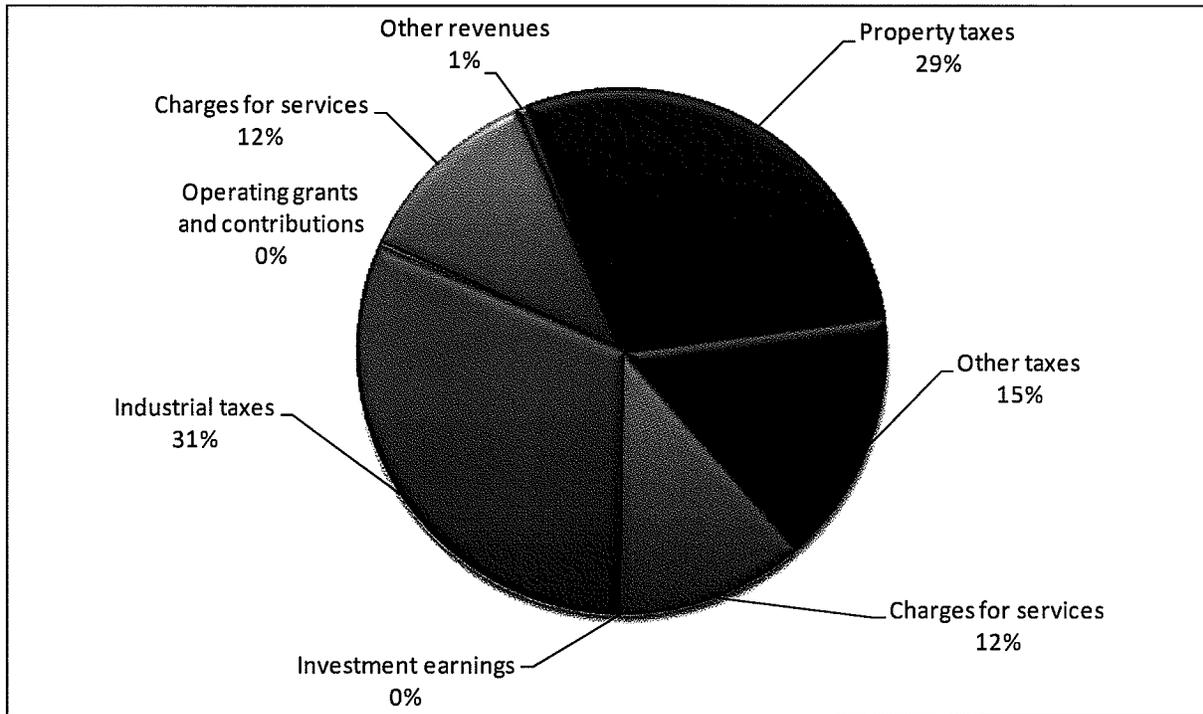

Governmental activities – Governmental activities decreased the net assets of the City by \$(5,561,372) during the current fiscal year. Key elements of this decrease are as follows:

- Revenues exceeded expenses by \$194,715 due primarily to continued growth in sales taxes and increased growth in industrial taxes. Net assets will continue to increase due to planned growth by the oil and chemical companies located within the City's industrial district. The "in-lieu of tax" contracts with these companies were due to expire December 31, 2008; however, the existing contracts were extended through December 31, 2009. Residential and commercial development continues, resulting in increases to net assets derived from additions to the tax base.

Expense and Program Revenues – Governmental Activities

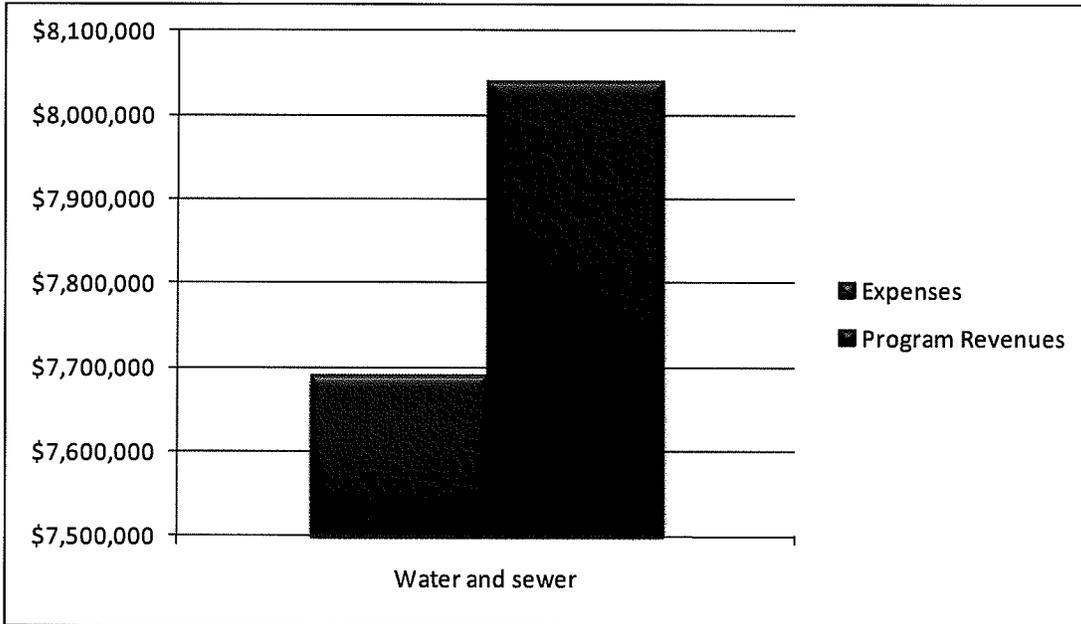

Revenues by Source – Governmental Activities

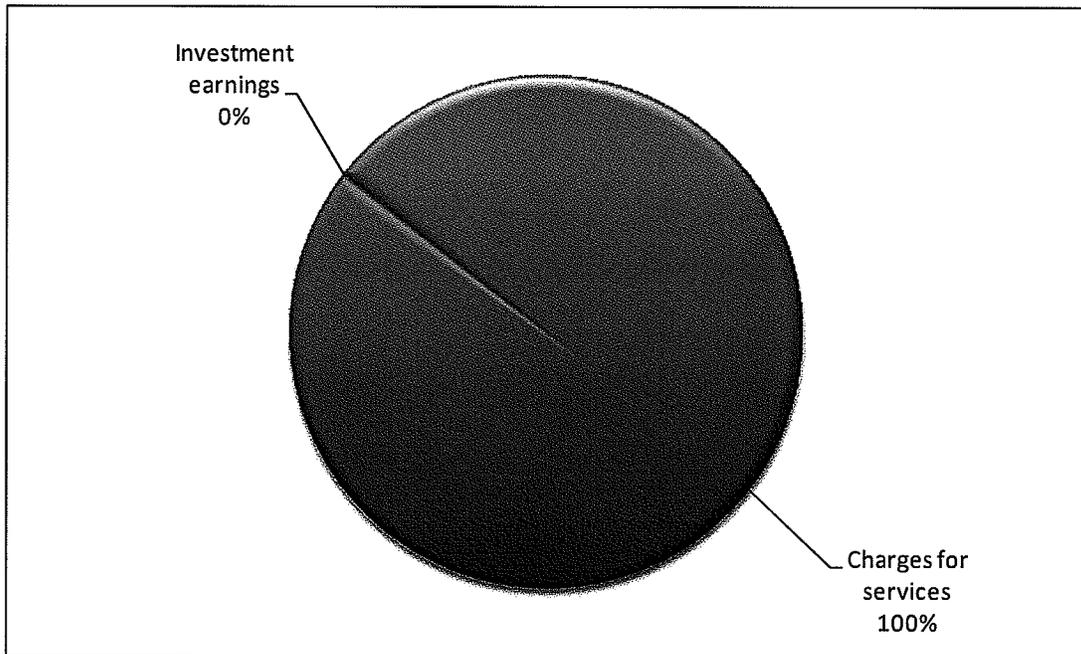

Business-type activities. Business-type activities increased the City of Deer Park's net assets by \$2,905,932. Key elements of the decrease are as follows:

- The Water and Sewer operation had a net gain before transfers of \$355,932.

Expense and Program Revenues – Business-type Activities

Revenues by Source – Business-type Activities

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City of Deer Park uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds – The focus of the City of Deer Park's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City of Deer Park's governmental funds reported combined ending fund balances of \$34,603,130, an increase of \$3,643,485 when compared to the prior year. Approximately 99% of the combined \$34,603,130 amount (\$34,396,124) is unreserved. These fund balances are available for spending at the government's discretion. The remainder of the fund balance (\$207,006) is reserved to indicate that it is not available for new spending.

The General Fund is the primary operating fund of the City of Deer Park. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$15,247,265. This represents a 3% decrease from the General Fund Balance of \$16,424,991 at September 30, 2009. The major reason for this decrease is due to significant decreases in the City of Deer Park's Industrial District appraised values and growth in the District. Additionally, property taxes increased approximately 4 percent from fiscal year 2009. As a measure of the General Fund's liquidity, it may be useful to compare unreserved fund balance to total fund expenditures. Unreserved fund balance represents 47 percent of the General Fund expenditures.

The Debt Service Fund has a total fund balance of \$2,088,508 all of which is reserved for the payment of future debt service. Principal and interest expenditures increased by \$131,565 and the City experienced a net increase in revenues and transfers in the amount of \$64,334 to arrive at an increase in fund balance of \$6,988 for the year ended September 30, 2010.

Proprietary funds – The City's proprietary fund statements beginning on page 27 of this report provide the same type of information found in the government-wide financial statements, but in more detail.

At the end of the year, unrestricted net assets amounted to \$2,849,682 for the Water and Sewer Fund. The total increase in net assets for the Water and Sewer Fund was \$2,905,932. Other factors concerning the finances of these funds have already been addressed in the discussion of the City of Deer Park's business-type activities.

General Fund Budgetary Highlights – The final budget was \$29,631 (0.09% decrease) less than the previous year's final budget.

- \$782,082 increase for general government
- \$48,778 decrease for community development
- \$180,732 decrease for public works
- \$202,514 increase for public safety
- \$600,992 decrease in capital outlay

This increase was funded through revenues generated by taxes on new construction within the City. Refer to the General Fund Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual on page 55 of this report for a detailed presentation of the actual General Fund operations compared to both the original and final budget for fiscal year 2010. The reasons for any major variances in the General Fund budget include:

Revenues – a material decrease occurred in 2010 investment earnings due to historically low interest rates on the City investments. Interest rates on investments remained at or below .5 percent throughout the year. General Fund revenues were under budget by \$294,285.

Expenditures – General Government: A summary of budgetary expenditures, variances, in summary by object, appears on pages 61 – 68. General Fund expenditures were \$525,729 under budget (page 55).

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets – The City of Deer Park’s investment in capital assets for its governmental and business-type activities as of September 30, 2010, amounted to \$80,465,750 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery, equipment, storm drainage, and streets. The total increase in the City of Deer Park’s investment in capital assets for the current fiscal year was 2.6 percent.

CITY OF DEER PARK’S CAPITAL ASSETS AT YEAR-END

Improvements	19,680	(971)	-	18,709
Machinery and equipment	823	(91)	-	732
Total	<u>\$ 24,617</u>	<u>\$ (920)</u>	<u>\$ -</u>	<u>\$ 23,697</u>

Major capital asset events (governmental activities) during the current fiscal year included replacement of many police, fire, and sanitation vehicles and the purchase of large equipment. The City made a major purchase of computers and computer equipment at the beginning of the budget year. The City continues to make significant improvements at the City owned Golf Course. The major increase in business-type fixed assets was the completion of construction of several street and drainage projects.

Additional information on the City of Deer Park's capital assets can be found in Note III on pages 43 – 44 of this report.

Long-term Debt – At the end of the current fiscal year, the City of Deer Park had total bonded debt outstanding of \$47,810,000. Of this amount, \$39,165,000 comprises debt backed by the full faith and credit of the government and \$8,645,000 is related to the maintenance and construction of the Water and Sewer Fund infrastructure.

**OUTSTANDING DEBT AT YEAR-END
GENERAL OBLIGATIONS AND REVENUE BONDS PAYABLE**

	Governmental Activities		Business-type Activities		Totals	
	2010	2009	2010	2009	2010	2009
General obligation bonds	\$ 39,165	\$ 30,955	\$ -	\$ -	\$ 39,165	\$ 30,955
Revenue bonds	-	-	8,645	12,400	8,645	12,400
	<u>\$ 39,165</u>	<u>\$ 30,955</u>	<u>\$ 8,645</u>	<u>\$ 12,400</u>	<u>\$ 47,810</u>	<u>\$ 43,355</u>

The City's total debt increased \$4,455,000 during the current fiscal year.

Standard & Poor's and Moody's underlying ratings of the City's ratings are as follows:

	Standard & Poor's	Moody's Investors Service
General Obligation Bonds	AA+	A1
Water and Sewer	AA+	A3

State statutes limit the amount of general obligation debt a governmental entity may issue to 10 percent of its total assessed valuation. The current debt limitation for the City of Deer Park is \$147,749,789.

Additional information on the City of Deer Park's outstanding debt can be found in pages 45 – 49 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Property values, the basis for 75 percent of governmental fund revenues, increased significantly for the 2010 tax year (2011 fiscal year).

For the 2011 fiscal year budget, the total tax rate was kept at \$0.705 per \$100 of assessed value. Increases in projections of total revenues are approximately \$2,953,200, or an 11% increase.

Water and sewer rates will increase by 6% to finance debt payments and additional infrastructure rehabilitation.

REQUESTS FOR INFORMATION

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances. If you have questions about this report or need any additional information, contact the Office of the Director of Finance, 710 E. San Augustine, Deer Park, Texas 77536, 281-478-7225.

Amounts reported for governmental activities in the statement of net assets are different because:

- Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.
- Other long-term assets are not available to pay for current-period expenditures and, therefore are deferred in the funds.
- Long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds.
- Net assets of governmental activities

CITY OF DEER PARK, TEXAS

**RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES**

FOR THE YEAR ENDED SEPTEMBER 30, 2010

Amounts reported for governmental activities in the Statement of Activities (pages 20 - 21 are different because:

Net change in fund balances - total governmental funds:	\$ 3,643,485
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	2,947,758
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.	(372,688)
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds.	(<u>11,779,927</u>)
Change in net assets of governmental activities	\$(<u> 5,561,372</u>)

The accompanying notes are an integral part of these financial statements.

CITY OF DEER PARK, TEXAS

NOTES TO FINANCIAL STATEMENTS

SEPTEMBER 30, 2010

ORGANIZATION

The City of Deer Park, Texas was incorporated in 1948 and adopted a home-rule charter in December 1960. The charter provides for a "Mayor-Council" form of City government with a City Manager. A mayor and six council members are elected by voters of the City at-large for two-year terms.

The City provides the following services: general administrative, police and fire protection, community development (planning, parks and recreation, and library), public works (building and street maintenance and sanitation), principal and interest on general obligation debt, water and sewer, and operates a municipal golf course.

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Deer Park (the "City") have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental entities. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below:

Reporting Entity

The City is an independent political subdivision of the State of Texas governed by an elected six-member council and a mayor and is considered a primary government. As required by generally accepted accounting principles, these basic financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations or functions as part of the City's financial reporting entity. Based on these considerations, no other entities have been included in the City's reporting entity. Additionally, as the City is considered a primary government for financial reporting purposes, its activities are not considered a part of any other governmental or other type of reporting entity.

Considerations regarding the potential for inclusion of other entities, organizations or functions in the City's financial reporting entity are based on criteria prescribed by generally accepted accounting principles. These same criteria are evaluated in considering whether the City is a part of any other governmental or other type of reporting entity. The overriding elements associated with prescribed criteria considered in determining that the City's financial reporting entity status is that of a primary government are that it has a separately elected governing body; it is legally separate; and it is fiscally independent of other state and local governments. Additional prescribed criteria under generally accepted accounting principles include considerations pertaining to organizations for which the primary government is financially accountable; and considerations pertaining to other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

(continued)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-wide Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenue, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenue* includes 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenue are reported instead as *general revenue*.

Separate financial statements are provided for governmental funds, and proprietary funds. Major individual governmental funds and major individual Enterprise Funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, sales taxes, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

(continued)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Governmental Funds are those through which most governmental functions of the City are financed. The acquisition, use, and balances of the City's expendable financial resources and the related liabilities (except those accounted for in the proprietary fund type) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination.

The City reports the following major governmental funds:

The **General Fund** is the City's primary operating fund. The General Fund accounts for the resources used to finance the basic operations of the City and covers all activities for which a separate fund has not been established.

The **Debt Service Fund** is used to account for the accumulation of resources and for the payment of principal and interest on general long-term debt of the City.

The **CIBF 2007 Fund** is used to account for the receipt of bond funds and the expenditures of such funds to construct/improve various public buildings, purchase of land for parks and recreation facilities, street improvement projects and sidewalk construction.

The **CIBF 2010 Fund** is used to account for the receipt of bond funds and the expenditures of such funds to construct drainage improvements.

The City reports the following major proprietary fund:

The **Water and Sewer Fund** accounts for operations of the water and sewer service provided to the City.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and Enterprise Funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and sewer activities and various other functions of the government. Elimination of these charges would distort the direct costs and program revenue reported for the various functions concerned.

Amounts reported as *program revenues* include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenue. Likewise, general revenue includes all taxes.

(continued)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's Enterprise Funds are charges to customers for sales and services. Operating expenses for Enterprise Funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash and Investments

Cash includes amounts in demand deposits as well as balances in investment pools. Investments in a state investment pool (TexPool) and funds invested in interest-bearing checking accounts are stated at cost, which approximate fair value.

For the purpose of presenting the proprietary fund cash flow statement, cash and cash equivalents include cash demand and time deposits and investments with a maturity date within three months of the date acquired by the City.

Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

All taxes due the City on real or personal property are payable at the Office of the City Assessor-Collector and may be paid at any time after the tax rolls for the year have been completed and approved, which is October 1, or as soon thereafter as practicable. Taxes are due upon receipt and all taxes not paid prior to February 1 are deemed delinquent and are subject to such penalty and interest as the Council may provide by ordinance. All property located within the City limits on the first day of January of each year are charged with a special lien in favor of the City from such date for taxes due thereon.

Short-term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

(continued)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Inventories and Prepaid Items

Inventories are valued at cost using the first-in/first-out (FIFO) method. The costs of governmental fund type inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Capital Assets

Capital assets are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City defines capital assets as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of one year. All purchased capital assets are valued at cost where historical records exist. Donated capital assets are valued at their estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements, including public domain, and equipment are capitalized and proprietary fund capital assets are depreciated over the remaining useful lives of the related capital assets using the straight-line method, as applicable.

<u>Assets</u>	<u>Estimated Useful Lives</u>
Water and sewer system	3 - 5
Heavy equipment	20 - 50
Buildings and improvements	35
Furniture and fixtures	5 - 50
Automobiles, trucks and equipment	5 - 20
Public domain infrastructure	40

Compensated Absences

Employees earn vacation based on years of service with the City within certain limits. Only accumulated vacation, earned compensatory time and sick leave for the current year are paid upon termination of employment. Vacation pay is accrued when incurred in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. A liability for these amounts is reported in governmental funds only if they have matured for example, as a result of employee resignations and retirements.

Long-term Obligations

The government-wide financial statement and proprietary fund type financial statements report long-term debt and other long-term obligations as liabilities in the applicable governmental activities, business-type activities or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

(continued)

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Long-term Obligations (Continued)

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

Estimates

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual amounts could differ from those estimates.

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Assets

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains, “Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.” The details of this \$(45,490,582) difference are as follows:

General obligations	\$(39,165,000)
Premium on bond issuance	(969,402)
Loss on refunding bonds	431,822
Deferred charges - bond costs	566,004
Accrued interest payable	(170,528)
Compensated absences	(522,116)
Capital lease obligations	(1,834,124)
Net OPEB obligations	(3,072,563)
Net pension obligations	(<u>754,675</u>)
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	\$(<u>45,490,582</u>)

The governmental fund balance sheet includes a reconciliation between *fund balance – total governmental funds* and *net assets – governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains, “Other long-term assets are not available to pay for current-period expenditures and, therefore are deferred in the funds.” The details of this \$690,906 difference are as follows:

Property taxes receivable	\$ 266,489
Court fines receivable	111,951
Ambulance receivable	<u>312,466</u>
Net adjustment to reduce <i>fund balance - total governmental funds</i> to arrive at <i>net assets - governmental activities</i>	\$ <u>690,906</u>

(continued)

II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS
(Continued)

Explanation of Certain Differences Between the Governmental Fund Statement of Revenue, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenue, expenditures and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental fund* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, “Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.” The details of this \$2,947,758 difference are as follows:

Capital outlay	\$ 6,126,024
Depreciation expense	(3,156,779)
Other miscellaneous transactions involving capital assets	(21,487)
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	<u>\$ 2,947,758</u>

Another element of that reconciliation states, “Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.” The details of this \$(372,688) difference are as follows:

Property taxes	\$(381,633)
Court fines receivable	(1,483)
Ambulance receivable	<u>10,428</u>
Net adjustment to increase <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	<u>\$(372,688)</u>

Another element of that reconciliation states, “The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets.” The details of this \$(11,779,927) difference are as follows:

Principal repayments	\$ 2,366,966
Bond issuance	(11,507,358)
Net pension obligation	(436,624)
Net OPEB obligation	(2,042,124)
Premium on bond issuance	(34,290)
Compensated absences	(9,881)
Accrued interest	<u>(116,616)</u>
Net adjustment to decrease <i>net changes in fund balances - total governmental funds</i> to arrive at <i>changes in net assets of governmental activities</i>	<u>\$(11,779,927)</u>

III. ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY

Deposits and Investments

As of September 30, 2010, the City had the following investments:

<u>Investment Type</u>	<u>Fair Value</u>	<u>Weighted Average Maturity (Days)</u>
TexPool	\$ 29,640,475	34

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the City to adopt, implement and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the City to invest in (1) obligations of the U. S. Treasury, certain U. S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers' acceptances, (7) Mutual Funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds. The Act also requires the City to have independent auditors perform test procedures related to investment practices as provided by the Act. The City is in substantial compliance with the requirements of the Act and with local policies.

The City's investment pool is a 2a7-like pool. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. The City uses the following external investment pool:

TexPool

Under the TexPool Participation Agreement, administrative and investment services to TexPool are provided by Lehman Brothers, Inc. and Federated Investors, Inc. through an agreement with the State of Texas Comptroller of Public Accountants. The State Comptroller is the sole officer, director, and shareholder of the Texas Treasury Safekeeping Trust Company authorized to operate TexPool.

TexPool is rated AAAM by Standard & Poor's. As a requirement to maintain the rating, weekly portfolio information must be submitted to Standard & Poor's, as well as the Office of the Comptroller of Public Accounts for review. TexPool uses amortized cost rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares.

(continued)

III. ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (Continued)

Deposits and Investments (Continued)

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statutes require that all deposits in financial institutions be fully collateralized by U. S. Government Obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a fair value of not less than the principal amount of deposits. As of September 30, 2010, \$8,451,214 of the City's \$8,701,214 deposit balance was collateralized with securities held by the pledging financial institution. The remaining balance, \$250,000 was covered by FDIC insurance.

Credit Risk. It is the City's policy to limit its investments to investment types with an investment quality rating not less than A or its equivalent by a nationally recognized statistical rating organization. The City's investment pool is rated AAAm by Standard & Poor's Investors Service.

Property Taxes

Property taxes are levied by October 1 in conformity with Subtitle E. Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties and interest ultimately imposed. The Harris County Central Appraisal District ("CAD") establishes appraised values. Taxes are levied by the City Council based on the appraised values received from the CAD.

Property tax rates, established in accordance with state law, are levied on real and personal property within the City for use in financing and general and debt service expenditures for the 2010 fiscal year (2009 tax year), resulting in an adjusted tax levy of approximately \$12.37 million based on an assessed property valuation of approximately \$1.75 billion were as follows:

	Tax Rate per \$100 of <u>Assessed Value</u>
General Fund	\$ 0.5110
Debt Service Fund	<u>0.1940</u>
Total Tax Rate	<u>\$ 0.7050</u>

(continued)

III. ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (Continued)

Property Taxes (Continued)

Net property taxes receivable, at September 30, 2010, consisted of the following:

	<u>Delinquent Taxes Receivable</u>
Current year	\$ 164,738
Prior years	<u>453,195</u>
	617,933
Penalties and interest	355,068
Less: allowance for doubtful accounts	<u>(683,017)</u>
Net property taxes	<u>\$ 289,984</u>

Industrial District Contracts

A significant portion of the City's revenue is derived from contractual agreements with 21 separate industrial companies that lie within the City's extraterritorial jurisdiction. In 2000, the City and the industries located in the Industrial Zone agreed to new contracts extending to 2006. These new contracts call for each industry to annually render to the City a written description of its land, improvements, and tangible personal property as of the immediately preceding January 1. It was the opinion of the legal counsel for Harris County Appraisal District that the value of land and improvements that were not physically located within the corporate area of the City could not be included on the City's tax roll. In the negotiations for renewal of the Industrial District contracts, the City agreed to continue the annexation of just the 50-foot wide strip around the perimeter of each plant. As a result, only a very small amount of the value of these industries will be included in the City's tax roll in the future. The companies agreed to pay an amount "in-lieu" of taxes in the unannexed area of an amount equal to the sum of 63% of the amount of ad valorem taxes which would be payable to the City if all of the companies' land and improvements which existed on January 1, 2001, 2002, 2003, 2004, 2005 and 2006 had been within the corporate limits of the City. New construction payments will be made on percentages of new value as described in the contract at 25% the first year, 35% the second year, 45% the third year, 55% the fourth year, and 63% for the fifth year of operations.

Industrial district contract revenues receivable at year-end consisted of the following:

	<u>Industrial District Payments</u>
Prior years	\$ 10,676
Less: allowance for doubtful accounts	<u>(9,992)</u>
Net receivables	<u>\$ 684</u>

(continued)

III. ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (Continued)

Receivables

Amounts recorded as receivable as of September 30, 2010, for the City's individual major and nonmajor funds, including the applicable allowances for uncollectible accounts, are as follows:

	<u>General</u>	<u>Debt Service</u>	<u>Water and Sewer</u>	<u>Nonmajor and Other Funds</u>	<u>Total</u>
Receivables:					
Taxes	\$ 706,930	\$ 266,071	\$ -	\$ -	\$ 973,001
Intergovernmental	-	-	-	638,370	638,370
Accounts	1,574,613	-	1,026,180	116,753	2,717,546
Ambulance	<u>3,477,136</u>	<u>-</u>	<u>-</u>	<u>-</u>	<u>3,477,136</u>
Gross receivables	5,758,679	266,071	1,026,180	755,123	7,806,053
Less: allowance for uncollectibles	<u>4,038,827</u>	<u>154,796</u>	<u>194,409</u>	<u>-</u>	<u>4,388,032</u>
Net total receivables	<u>\$ 1,719,852</u>	<u>\$ 111,275</u>	<u>\$ 831,771</u>	<u>\$ 755,123</u>	<u>\$ 3,418,021</u>

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

	<u>Unavailable</u>	<u>Unearned</u>
Delinquent property taxes receivable (general)	\$ 161,491	\$ -
Delinquent property taxes receivable (debt service)	104,998	-
Court fines	111,951	-
Ambulance	312,466	-
Other	<u>-</u>	<u>300</u>
Total governmental funds	<u>\$ 690,906</u>	<u>\$ 300</u>

2014	880,000	231,900	1,111,900
2015	560,000	204,843	764,843
2016-2020	2,820,000	682,548	3,502,548
2021-2025	<u>1,710,000</u>	<u>114,375</u>	<u>1,824,375</u>
Total	<u>\$ 8,645,000</u>	<u>\$ 2,120,397</u>	<u>\$ 10,765,397</u>

The principal and interest on governmental activities general obligation bonds and certificates of obligation are payable solely from property taxes levied on taxable property within the City of Deer Park, Texas. A number of limitations and restrictions are contained in the various bond ordinances. The City has complied with all significant limitations and restrictions.

(continued)

III. ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (Continued)

Certificates of Obligation, General Obligation Bonds and Revenue Bonds (Continued)

Defeasance of Bonds

In prior years, the City defeased certain certificates of obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. On September 30, 2010, bonds considered defeased and still outstanding were in the amount of \$12,825,000.

A schedule of general obligation bonds authorized by Deer Park voters and unissued at year-end follows:

<u>Purpose</u>	<u>Date Authorized</u>	<u>Amount Authorized</u>	<u>Amount Unissued</u>
Water improvements	03/04/80	\$ 2,200,000	\$ 2,000,000
Sewer system improvements	12/09/86	2,700,000	2,175,000
Waterworks system improvements	12/09/86	2,750,000	2,750,000
Park/recreational facility improvements	09/23/00	<u>6,580,000</u>	<u>1,040,000</u>
		<u>\$ 14,230,000</u>	<u>\$ 7,965,000</u>

Advance Refunding

The City of Deer Park, Texas issued \$6,295,000 of general obligation refunding bonds to provide resources to purchase U. S. Government State and Local Government Series securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$6,375,000 of general obligation bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the governmental activities column of the statement of net assets. The reacquisition price exceeded the net carrying amount of the old debt by \$182,637. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt, which is shorter than the life of the new debt issued. This advance refunding was undertaken to reduce total debt service payments over the next 11 years by \$429,443 and resulted in an economic gain of \$355,752.

Contingent Arbitrage Liabilities

The City has invested a portion of bond proceeds. Any excess of interest revenue earned on invested proceeds over interest paid on the bonds must be rebated to the federal government every five years.

(continued)

III. ASSETS, LIABILITIES, AND NET ASSETS OR EQUITY (Continued)

Capital Leases

The City has entered into lease agreements as lessee for financing the acquisition of equipment, principally consisting of vehicles, communication equipment and computer systems. These leases qualify as capital leases for accounting purposes (titles transfer at the end of the lease terms) and, therefore, have been recorded at the present value of the future minimum lease payments as of the date of their inception. Approximately \$3.1 million of equipment has been leased under these agreements as of September 30, 2010. Capital leases bear interest ranging from 2.6% to 4.46% and have maturity dates ranging from 2010 to 2018. The total interest paid in 2010 for capital leases was \$40,875. Annual requirements to satisfy these obligations are as follows:

Fiscal Year Ending September 30,	Governmental Activities		
	Principal	Interest	Total
2011	\$ 392,022	\$ 52,936	\$ 444,958
2012	375,079	40,282	415,361
2013	329,619	29,367	358,986
2014	236,021	20,792	256,813
2015	231,308	13,536	244,844
2016-2018	<u>270,075</u>	<u>12,884</u>	<u>282,959</u>
Total	<u>\$ 1,834,124</u>	<u>\$ 169,797</u>	<u>\$ 2,003,921</u>

Interfund Receivables, Payables and Transfers

The following is a summary of interfund transfers for the year ended September 30, 2010:

	General	Transfers In			Total
		Debt Service	Nonmajor Governmental Funds	Debt Service	
Transfers Out:					
General	\$ -	\$ -	\$ 1,909,835	\$ -	\$ 1,909,835
Debt service	-	-	-	2,550,000	2,550,000
CIBF Series 2007	-	14,538	-	-	14,538
CIBF Series 2010	-	9,122	-	-	9,122
Nonmajor governmental funds	<u>153,977</u>	<u>5,394</u>	<u>-</u>	<u>-</u>	<u>159,371</u>
Total Transfers Out	<u>\$ 153,977</u>	<u>\$ 29,054</u>	<u>\$ 1,909,835</u>	<u>\$ 2,550,000</u>	<u>\$ 4,642,866</u>

Amounts transferred between funds relate to the following activities:

- Transfers to the Debt Service Fund were made to pay debt service and debt service related expenditures in accordance with applicable ordinances and federal regulations.
- Transfers to Nonmajor Governmental Funds were made to fund capital projects in the Capital Improvements Fund.
- Transfers to the Water and Sewer Fund were made to extinguish revenue bonds.

IV. OTHER INFORMATION

Other Postemployment Benefits

Annual OPEB Cost and Net OPEB Obligation

The City's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed 30 years. The City's annual OPEB cost for the current year and the related information is listed below:

Annual Required Contribution (ARC)	\$ 2,214,169
Interest on Net OPEB Obligation	47,225
Adjustment to the ARC	(65,650)
Annual OPEB Cost	2,195,744
Employer Contributions with Interest	(303,805)
Increase (Decrease) in Net OPEB Obligation	1,891,939
Net OPEB Obligation/(Asset), beginning of year	<u>1,180,624</u>
Net OPEB Obligation/(Asset), ending of year	<u>\$ 3,072,563</u>

In addition to the employer contribution, the retirees paid \$149,065 in the form of premiums which funded current medical claims.

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for the prior three years (4% discount rate, and level percent of pay amortization).

Fiscal Year Ended	Annual OPEB Cost	Employer Contribution	Percentage Contributed	Net OPEB Obligation
09/30/08	N/A	N/A	N/A	N/A
09/30/09	\$ 1,448,648	\$ 268,024	18.5%	\$ 1,180,624
09/30/10	2,195,744	303,805	13.9%	3,072,563

Funding Status and Funding Progress

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Unfunded (AAL) (UAAL)	Funded Ratio	Covered Payroll	UAAL as a Percentage of Covered Payroll
10/01/07	\$ -	\$ 12,921,500	\$ 12,921,500	- %	\$ 12,433,803	103.92%

(continued)

IV. OTHER INFORMATION (Continued)

Other Postemployment Benefits (Continued)

Funding Status and Funding Progress (Continued)

This is the second year of implementation of GASB 45. Accordingly, only two years of funding progress are available. The projection of future payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the health care cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

Actuarial Methods and Assumptions

The Unit Credit actuarial cost method is used to calculate the ARC for the City's retiree health care plan. Using the plan benefits, the present health premiums and set of actuarial assumptions, the anticipated future payments are projected. The unit credit method then provides for a systematic funding for these anticipated payments. The yearly ARC is computed to cover the cost of benefits being earned by covered members as well as to amortize a portion of the unfunded accrued liability.

Projection of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Actuarial Valuation Date	10/01/09
Actuarial Cost Method	Unit Credit
Amortization Method	Level dollar, open
Remaining Amortization Period	30 years
Asset Valuation Method	Market Value
Actuarial Assumptions:	
Investment Rate of Return	4.0%
Projected Salary Increases	N/A
Health Care Inflation Rate	7% initial 5% ultimate

Supplemental Death Benefits Fund

Plan Description

The City also participates in the cost sharing multiple-employer defined benefit group term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance to provide group term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

Benefits

The death benefit for active employees provides a lump sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB.

Contributions

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

Schedule of Contribution Rates

<u>Accounting Year Ending</u>	<u>Annual Required Contribution (Rate)</u>	<u>Actual Contribution Made (Rate)</u>	<u>Percentage of ARC Contributed</u>
09/30/08	.04%	.04%	100%
09/30/09	.04%	.04%	100%
09/30/10	.04%	.04%	100%

Deferred Compensation Plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. Amounts of compensation deferred by employees under the plan provisions are disbursed monthly by the City to a third party administrator. The third party administrator handles all funds in the plan and makes investment decisions and disburses funds to employees in accordance with plan provisions.

The market value of plan assets held and administered by the plan's third party administrator was approximately \$4,035,846 at September 30, 2010.

(continued)

IV. OTHER INFORMATION (Continued)

Employee Retirement System

Plan Description

The City provides pension benefits for all of its eligible employees through a non-traditional, joint contributory, hybrid defined benefit plan in the statewide Texas Municipal Retirement System (TMRS), an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the City are within the options available in the governing state statutes of TMRS.

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the System. This report may be obtained by writing to TMRS, P. O. Box 149153, Austin, Texas 78714-9153 or by calling 800-924-8677; in addition, the report is available on TMRS' website at www.TMRS.com.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

	<u>Plan Year 2009</u>	<u>Plan Year 2010</u>
Employee deposit rate	7.0%	7.0%
Matching ratio (city to employee)	2 to 1	2 to 1
Years required for vesting	5	5
Service retirement eligibility (expressed as age/years of service)	60/5, 0/20	60/5, 0/20
Updated service credit	100% repeating, transfers	100% repeating, transfers
Annuity increase (to retirees)	50% of CPI repeating	50% of CPI repeating

Contributions

Under the state law governing TMRS, the contribution rate for each City is determined annually by the actuary, using the Projected Unit Credit actuarial cost method. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which is calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the portion of an active member's projected benefit allocated annually; the prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable period for that city. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as Updated Service Credits and Annuity Increases.

(continued)

IV. OTHER INFORMATION (Continued)

Employee Retirement System (Continued)

Contributions (Continued)

The City contributes to the TMRS Plan at an actuarially determined rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect. The annual pension cost and net pension obligation/(asset) are as follows:

Annual Required Contribution (ARC)	\$ 3,078,773
Interest on Net Pension Obligation	27,252
Adjustment to the ARC	(22,187)
Annual Pension Cost	3,083,838
Employer Contributions with Interest	(2,586,496)
Increase (Decrease) in Net Pension Obligation	497,342
Net Pension Obligation/(Asset), beginning of year	<u>363,354</u>
Net Pension Obligation/(Asset), ending of year	<u>\$ 860,696</u>

Three-year trend information is as follows:

Fiscal Year Ended	Annual Pension Cost	Employer Contribution	Percentage Contributed	Net Pension Obligation
09/30/08	\$ 1,914,322	\$ 1,914,322	100%	\$ -
09/30/09	2,732,854	2,369,500	86.7%	363,354
09/30/10	3,083,838	2,586,496	83.9%	860,696

The required contribution rates for fiscal year 2010 were determined as part of the December 31, 2007 and 2008 actuarial valuations. Additional information as of the latest actuarial valuation, December 31, 2009, also follows:

Actuarial Valuation Date	12/31/07	12/31/08	12/31/09
Actuarial cost method	Projected Unit Credit	Projected Unit Credit	Projected Unit Credit
Amortization method	Level percent of payroll	Level percent of payroll	Level percent of payroll
Remaining amortization period	30 years - closed	29 years - closed	28 years - closed
Asset valuation method	Amortized cost	Amortized cost	10-year Smoothed Market
Actuarial Assumptions:			
Investment rate of return	7%	7.5%	7.5%
Projected salary increases	varies by age and service	varies by age and service	varies by age and service
Inflation	3.0%	3.0%	3.0%
Cost-of-living adjustments	1.5%	1.5%	1.5%

Required Supplementary Information

The funded status as of December 31, 2009, the most recent actuarial valuation date, is as follows:

Actual Valuation Date	12/31/09	12/31/08	12/31/07
Actuarial value of assets	\$ 40,944,323	\$ 41,676,831	\$ 40,862,738
Actuarial accrued liability	59,386,292	59,251,277	56,801,494
Percent funded	68.9%	70.3%	71.9%
Unfunded (overfunded) actuarial accrued liability (UAAL)	18,441,969	17,574,446	15,938,756
Annual covered payroll	15,132,722	14,552,429	12,961,828
UAAL as a percentage of covered payroll	121.9%	120.8%	123.0%

Litigation

On various occasions, the City can be either a defendant or co-defendant in lawsuits. While the City and legal counsel cannot predict the results of any litigation, it believes it has meritorious defenses to those actions, proceedings and claims. It is the opinion of City Management and legal counsel that any ultimate uninsured liability to the City from these lawsuits will not be material.

Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City's risk management program encompasses obtaining property and liability insurance through Texas Municipal League (TML), an Intergovernmental Risk-Pool. The City has not had any significant reduction in insurance coverage and the amounts of insurance settlements have not exceeded insurance coverage for any of the last three years. The participation of the City in TML is limited to payment of premiums. During the year ended September 30, 2010, the City paid premiums to TML for provisions of various liability, property and casualty insurance. The City has various deductible amounts ranging from \$500 to \$5,000 on various policies. At year-end, the City did not have any significant claims. TML will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified dollar amounts for each insured event.

The City also provides workers' compensation insurance on its employees through TML. Workers' compensation is subject to change when audited by TML. At year-end, September 30, 2010, the City believed the amounts paid on workers' compensation would not change significantly from the amounts recorded.

Prior Period Adjustment

The City of Deer Park, Texas has longevity pay as part of its compensation package. The amounts of longevity pay are calculated as of fiscal year-end and paid in December of that same calendar year. This has not been accrued as a liability in prior year financial statements. The net effect on fund balance and net assets was a decrease of \$503,299.

CITY OF DEER PARK, TEXAS

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

SEPTEMBER 30, 2010

Budget

The City charter requires that an annual appropriations style budget be prepared for the General Fund. The City also prepares annual budgets for the Hotel/Occupancy Tax Fund, Debt Service Fund and the Enterprise Fund. The City employs the following budgetary procedures:

- The City Manager submits to the City Council a proposed operating budget that includes proposed expenditures and resources for financing them.
- Public hearings are conducted to obtain taxpayer comments.
- Prior to the commencement of the fiscal year, the budget is legally enacted through the passage of an ordinance.
- Department heads are authorized to transfer minor budgeted amounts within a department; however, any revisions that alter total expenditures for any department must be approved by the City Manager, and any revisions to the fund level budget (the legal level of compliance) must be approved by City Council.
- All budgets are prepared on the modified accrual basis of accounting.
- Unused appropriations lapse at year-end.

Expenditures Over Appropriations

The City was over appropriations in the following functions:

Capital outlay	\$ 286,682
----------------	------------

These excess expenditures were covered by greater than expected revenues. The City will carefully review future budgets and make appropriate budget amendments.

COMBINING STATEMENTS

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Hotel/Occupancy Tax Fund – This fund is used to account for proceeds from hotel occupancy taxes received during the year. Expenditures from this fund are restricted to tourism activities. An appropriations style budget is adopted for this fund on an annual basis.

Grants Fund – This fund is used primarily to account for proceeds generated by special events special event activities of the City's Parks Department and related expenditures. Activities are not budgeted and are controlled on an event-by-event basis.

LEPC Fund – This fund is used to account for proceeds received for community awareness and emergency response programs. Expenditures of this fund are typically for community awareness, infrastructure and continuing education for those involved in emergency response.

Police Forfeiture Fund – This fund is used to account for the receipt and expenditure of revenues derived from crime seizures that are for police purposes.

Senior Citizen Fund – This fund is used to account for disbursements made from investment earnings from an initial \$100,000 corpus established as a trust fund to benefit citizens age 55 and older. All disbursements must be approved by the City of Deer Park Senior Citizen's Foundation Trust Committee. Activities are not budgeted and are controlled on an event-by-event basis.

Municipal Court Fund – This fund is used to account for specific revenues derived from fees generated by Municipal Court.

FEMA Hurricane Ike Fund – This fund is used to account for Federal Emergency Management Agency relief funds received by the City under a federal award. Expenditures of this fund relate to housing efforts as a result of Hurricane Ike. Expenditures are controlled by federal regulations. No appropriations style budget is adopted for this fund.

Capital Projects Funds are used to account for financial resources to be used for the acquisition and construction of major capital facilities and are financed principally through special assessments.

Capital Projects Fund – This fund is used to account for the receipt of special assessments and the expenditures of such funds to build the new Police Station.

1997 Streets Fund – This fund is used to account for the receipt of special assessments and the expenditures of such funds to improve Battleground Road.

Streets Fund – This fund is used to account for the receipt of special assessments and the expenditures of such funds to improve East Boulevard and East X Street.

Capital Improvements Fund – This fund is used to account for local funding at various capital projects throughout the City.

General Obligations Series 2005 Fund – This fund is used to account for the receipt of bond funds and the expenditures of such funds to construct/improve various public buildings, purchase of land for parks and recreation facilities, street improvement projects and sidewalk construction.

STATISTICAL SECTION

This part of the City of Deer Park, Texas' comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Contents	Page
Financial Trends These schedules contain trend information to help the reader understand how the government's financial performance and well-being have changed over time.	71
Revenue Capacity These schedules contain information to help the reader assess the government's most significant local revenue source, the property tax.	77
Debt Capacity These schedules present information to help the reader assess the affordability of the government's current levels of outstanding debt and the government's ability to issue additional debt in the future.	81
Demographic and Economic Information These schedules offer demographic and economic indicators to help the reader understand the environment within which the government's financial activities take place.	87
Operating Information These schedules contain service and infrastructure data to help the reader understand how the information in the government's financial report relates to the services the government provides and the activities it performs.	89

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Note: The City's largest own source revenue is tax revenue from the industrial district. However, the prior year information required is presently unavailable. The City is working diligently to gather the required information. The City is showing the relevant statistical data for their second largest own source revenue, which is property taxes.

Notes:

- (1) Revenues exceeded expenses in 2002 and 2003 due to a new agreement with the City "Industrial District" which resulted in an increase in payments during those years.
- (2) In 2005, revenues exceeded expenses by \$2,245,348 due primarily to an increase in industrial taxes and sales taxes from local growth. Additionally, residential and industrial development continued during that year, resulting in increases to fund balances derived from additional general property tax base.

Source: Harris County Appraisal District and City of Deer Park Tax Office

Notes: Harris County Appraisal District reappraises property every odd year. Tax rates are per \$100 of value. Assessed values are multiplied by the tax rate, divided by 100 which equals the tax levy.

During fiscal year 2002, the City entered into contractual agreements with 21 separate companies that lie within the City's extraterritorial jurisdiction. These companies now remit payments in lieu of taxes or industrial district revenues.

* The "Approximate Taxable Value" and "Approximate Adjusted Taxable Value" is based on an average rate which does not take into effect new construction in the Industrial District.

** In 2001, the City was in negotiation with Industry for an increase in the contracted rate in the Industrial District which had been at 52%. The new rate was to be 63%. Negotiations ran over the contractual time period so the City and Industry decided that for fiscal 2001 they would use 7/12 of the year at 52% and the remainder 5/12 at a rate of 68.5%

*** In 2001, the Harris County Appraisal District Certified some of the accounts in the Industrial District. These accounts used the full taxable value while the accounts not certified used the contracted rate. HCAD's attorneys advised that since these accounts are not in the City limits of Deer Park they should no longer be certified to the City. Fiscal 2001 was the last year HCAD certified accounts for the City in the Industrial District.

Notes: The City's basic property tax rate may be increased only by a majority vote of the City's residents. Rates for debt service are set based on each year's requirements.

Overlapping rates are those of local and county governments that apply to property owners within the City of Deer Park, Texas. All overlapping rates apply to all City of Deer Park property owners.

During fiscal year 2002, the City entered into contractual agreements with 21 separate industrial companies that lie within the City's extraterritorial jurisdiction. These companies now remit payments in lieu of taxes or industrial district revenues.

City direct debt	29,200,000		<u>29,200,000</u>
Total direct and overlapping debt			<u>\$ 117,530,560</u>

Sources: Texas Municipal Reports and Governmental Units

Notes: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Deer Park. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident--and therefore responsible for repaying the debt--of each overlapping government.

COMPLIANCE SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor and
Members of City Council
City of Deer Park, Texas

Members of the Council:

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Deer Park Texas as of and for the year ended September 30, 2010, which collectively comprise the City's basic financial statements and have issued our report thereon dated March 17, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

This report is intended solely for the information and use of management, City Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Pattillo, Brown & Hill, L.L.P.

March 17, 2011
