

DEER PARK **LEPC**
...safety in knowledge

**DEER PARK
 NOW**

2020

Dear Citizens of Deer Park,

In early 2019, Deer Park and surrounding communities experienced a chemical emergency, forcing people to stay inside, kids to miss school and businesses to shut down. While you're aware of the possibility of a chemical emergency occurring, do you know what to do when it does?

First and most importantly, connect to Deer Park Officials. There are a number of ways to do this. CodeRED alerts sent via phone, text and email are sent directly from City Officials and are the quickest way to receive information and instructions during emergencies. It is incredibly easy to sign up for CodeRED. Simply go to www.deerparklepc.org/338/Emergency-Notifications and click "sign up." Once you create an account and fill out a quick form, the City will contact you when an emergency occurs. If you don't want to sign up online, you can also visit Fire Station #3 at 2211 E. X Street. The last page of this calendar lists other ways to stay in contact with the City, including social media.

Now you will be getting the most current and accurate information directly from the City, so please follow instructions given to you by your local officials. In most chemical emergencies, City Officials will encourage you to 'Shelter In Place.' What does 'Shelter In Place' mean? It means that officials want you to stay put inside a building (home, school, store, etc.), close any openings like doors and windows and shut off the air conditioner or heater. Wait until you hear the all clear alarm tone on the City-wide alarm system or get an update from CodeRED before you stop sheltering. See the end of this calendar for more 'Shelter In Place' information, or visit www.deerparklepc.org.

Sincerely,

Christina Perez
Community Awareness Subcommittee Chair
Deer Park LEPC

Maximize your safety
with CodeRED!

Scan this QR code with your phone and sign up for notifications that matter to you. Choose from the following list:

- Missing persons/children
- Evacuation notices
- Natural disasters
- Boil water advisories
- Inclement weather warnings
- Criminal activities
- Road closures/traffic alerts
- Shelter in place/lockdowns

2020

The Deer Park Local Emergency Planning Committee is a cooperative partnership between community, government, emergency response agencies, businesses and industry striving to promote and maintain public health and safety by preparing hazardous materials-related incidents as part of a comprehensive community program. The LEPC's goal is to protect citizens and the environment by providing hazard awareness education, training exercises, emergency response plans and an emergency notification system.

LEPC Information

What is an LEPC?

LEPC stands for Local Emergency Planning Committee. It is composed of concerned citizens and officials from local government, law enforcement, fire and emergency medical services, hospitals, schools, civic and environmental groups, and the news media.

The LEPC also includes the emergency response coordinator from each Deer Park facility that produces, stores, or transports hazardous materials such as oil, gasoline, diesel fuel, natural gas, and chemicals used by industry and commercial businesses.

What is the purpose of the LEPC?

The LEPC is required to develop an emergency plan to educate, communicate and protect the local community during an accidental release of toxic chemicals. The LEPC also collects inventories of regulated chemicals each year.

What is the LEPC's history?

In 1986 the Deer Park LEPC began as the Community Awareness and Emergency Response (CAER) effort. This was a voluntary program developed by the Chemical Manufacturers Association and initiated locally by the petrochemical industry.

In October 1986, the "Emergency Planning and Community Right-To-Know Act" (EPCRA) was signed into federal law as part of the Superfund Amendments and Reauthorization Act, known as SARA Title III. This federal law required the formation of LEPCs in every city or county nationwide. Deer Park's CAER group expanded to become the Deer Park LEPC.

Which facilities are regulated under EPCRA?

Facilities not only include petrochemical and oil/gas production facilities but companies that ship hazardous materials by rail, truck, ship, barge or pipeline.

The law may also apply to small businesses such as dry cleaners, auto repair shops, gasoline service stations, and stores that sell paints, pesticides, swimming pool supplies, and other potentially hazardous chemicals. To find out if your business must comply with this federal law visit www.epa.gov/epcra.

When does the LEPC meet?

The Deer Park LEPC meets from 11:00 a.m. - 1:00 p.m. on the fourth Tuesday of each month except July and December. Meetings are typically held in the City Council Chambers at Deer Park City Hall, 710 East San Augustine Street. Meeting agendas and minutes can be found on our website www.deerparklepc.org.

How will I know if there is a chemical emergency?

If a chemical emergency could affect citizens within the City of Deer Park, the Outside Warning Siren will be activated. The warning siren will emit a loud, whooping sound. The sounding of the siren is the signal for Sheltering-In-Place.

A computerized telephone notification system can ring the published telephones of homes and businesses in the immediate danger area, giving pre-recorded instructions about what to do. To have an unlisted or cell telephone number added go to www.deerparklepc.org/338/EmergencyNotifications.

City officials may recommend that you shelter in place until the chemical leak is stopped and winds have dissipated any vapors or blown the vapors past your location.

What should I do during a chemical emergency?

The LEPC would like you to "Shelter in Place" by practicing the following steps:

1. Go inside immediately.

Seek the nearest enclosed structure, whether it's a house, business, garage, or vehicle. If you know of an invalid or unattended child in your neighborhood, call them and tell them to remain indoors. Keep any pets inside also. Gather emergency supplies like a portable radio, flashlight, and extra batteries.

2. Close up.

Close all doors, windows and other sources of outside air. Turn off air conditioning or heating systems, and close the fireplace damper to keep chemical vapors from entering. Ceiling fans or rotary fans inside the building can be safely used to keep cool.

Cover any gaps, holes or cracks with wet towels or sheets to prevent vapors from entering your home. If you have trouble breathing, contact 9-1-1 and, cover your nose and mouth with a damp washcloth, then take slow, shallow breaths and try to stay calm.

3. Stay informed.

Stay off the telephone. City officials may try to telephone your home or business using the city's computerized telephone notification system. Do not call police, fire, or 9-1-1 unless you are reporting an emergency at your location. Overloaded phone circuits may keep actual emergency calls from getting through.

Updates from the city will be available through the following:

- Television: Deer Park TV on Comcast Cable Channel 16 or AT&T U-Verse Channel 99
- Radio: KUHF-FM 88.7 or KTRH-AM 740
- The CAER Line: www.ehcma.org/caerline
- Facebook: www.facebook.com/deerparktx.oem
- Twitter: @deerparkoem
- Register NOW for emergency notifications (CodeRED) by visiting www.deerparklepc.org/338/Emergency-Notifications and click "sign up."
- For additional information on how to "Shelter In Place" visit our website at www.deerparklepc.org

What if I can't find shelter?

Studies indicate that taking shelter is the best response to a chemical release. Even a poorly sealed building or vehicle provides some protection against chemical vapors. If you are inside a vehicle, close your vehicle's doors and windows, and turn off the vehicle's air conditioning and ventilation system.

If you can't get inside immediately, move in a crosswind direction, so the wind is blowing from left to right, or right to left, but not directly into your face or from behind you. You can see what direction the wind is blowing by observing nearby trees, flags or clouds. Continue moving away from the chemical release until shelter can be reached.

Should I try to evacuate?

You should NOT attempt an evacuation during a chemical emergency unless specifically ordered by city officials. Leaving your home or business may expose you to more chemical vapors, especially if you travel toward the leak or through a toxic cloud.

How will I know when the emergency is over?

Stay inside, sheltered in place, until you hear the all-clear signal from city officials over the Outside Warning System, telephone notification system, Facebook, Twitter, or DPTV. The all-clear signal is a continuous tone on the Outside Warning System. After the all-clear signal has been given, open all doors and windows, turn on your ceiling fans, air conditioner or heater, then go outside to let the building air out before you re-enter.

What if my children are in school?

The administrative staff and teachers at your children's school will be notified in the event of a chemical release. They have been trained how to protect your children and shelter in place until the emergency is over.

Do NOT call the school and tie up telephone lines needed by school staff to communicate with emergency responders. Do NOT go to the school; doing so would put yourself at risk for exposure. Instead stay informed by following the City's Facebook page, Twitter feed, Website, or DPTV16 for information from school officials.

Does the computerized telephone system have my number?

The computerized telephone system database contains all published residential and business telephone numbers in Deer Park. To have an unlisted or cell telephone number added go to www.ReadyDP.com.

When is the Outside Warning System tested?

The Outside Warning System is tested at 12:00 noon every Saturday of the month. If you hear the warning at any other time, you should assume a real emergency exists and follow established emergency response procedures.

City Officials

Elected Officials

Jerry Mouton, Jr.	Mayor
Sherry Garrison	Councilmember - Position 1
T.J. Haight	Councilmember - Position 2
Tommy Ginn	Councilmember - Position 3
Bill Patterson	Councilmember - Position 4
Ron Martin	Councilmember - Position 5
Rae A. Sinor	Councilmember - Position 6

Department Directors

James J. Stokes	City Manager
Gary Jackson	Assistant City Manager
Shannon Bennett	City Secretary

Reminders From The Public Works Department

- Call Public Works at 281-478-7270 before calling the plumber.
- A dripping faucet or running toilet will affect your water bill.
- Do not pour grease down your drain; it can clog lines and will impact the sanitary sewer system.
- Adorable pets are available for adoption at the Animal Shelter. Call 281-478-7274 for more info.
- Leash law is for dogs and cats.

Develop a Safety Plan

Talk with your family about what you would do in all emergency situations:

- Chemical Emergency
- Fire
- Hurricane
- Flood
- Tornado
- Medical Emergency

Emergency Safety Kit

Have a small box ready to go and filled with these items.

- Towel
- First Aid Kit
- Plastic trash bags
- Non-perishable food
- Eyeglasses
- Batteries/Chargers
- Sanitizer
- Important Documents
- Matches/lighter
- Hearing aid
- Prescription drugs
- Drinking water
- Wide tape
- Flash light
- Radio
- Cell Phone
- Baby and Pet Supplies

Funding for this calendar was provided by the following organizations and companies:

Akzo Nobel	NuStar Logistics
City of Deer Park	Oxy Vinyls
Clean Harbors	Praxair
Delta Companies Group	Shell Deer Park
Dow Chemical	Shell Pipeline
Evonik Oil Additives	TM Deer Park Services, LP
Genesis Pipeline	USA Environment
GEO Specialty	Valvoline
Hexion	Vopak Terminals
Houston Ammonia Terminal	
ITC (Intercontinental Terminals)	
Kinder Morgan	Design & Printing
Lubrizol	Richmond Printing
Novvi	

The Deer Park LEPC would like to dedicate this calendar to Chris Hext, who served as Vice-Chairman 2011-2018. A special thank you to Chris for his years of dedication and service to the Deer Park LEPC and community.
